| Name                    | Hex       | Comment                                                                                                                                  |                                                                                       |
|-------------------------|-----------|------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|
| I-House Burgundy        | #730b0cff | Primary I-House color, use when possible                                                                                                 |   |
| Muted I-House Burgundy  | #882525ff | Alternative to I-House burgundy, use for accent color when regular I-House burgundy is too strong or dark (e.g. this wiki accent color). |  |
| Accent I-House Burgundy | #a02c2cff | Use this as an accent to I-House burgundy, but not a stand-in.                                                                           |  |
